### Favors Senate Bill No. 225

Jacksonville, Fla., April 28, 1909.  
Editor of the Florida Star.

In your coming issue will you please call your subscribers attention to senate bill No. 225, introduced by Senator F. M. Hudson, of Dade county, entitled:

An act to protect and promote the fruit growing and horticultural interests of the state of Florida; to exterminate crop pests and to provide for the appointment of county inspectors.

This measure is modeled after the California and Colorado county laws authorizing the appointment of county inspectors and if the bill becomes a law and is enforced would be productive of great benefits to the Florida fruit growers. It seems advisable to pass such a law as Florida has great possibilities as a fruit producing state and the orange and peach industries should have some intelligent supervision. The government entomologists say "that Florida is the dumping ground of the other states owing to the lack of quarantine and inspection laws."

It is also a known fact that some of the Florida nurserymen are indifferent as to the kind of stock they send out.

In California a similar law has been in successful operation for many years and the present success of California as a fruit producing state is due to the fact that such a law is enforced.

Please urge all of your subscribers interested in the Florida fruit industry to write their representatives at Tallahassee urging the passage of senate bill No. 225.

Yours very truly,  
J. C. CHASE,  
Secretary and Treasurer,  
F. F. & V. S. P. Ass'n.

### Columbia Remains Dry

One of the most exciting elections ever held in Columbia county ended Saturday when the polls closed on the "wet" and "dry" contest. Columbia remains dry by a majority of about 135.

The contest was hard fought, and in every precinct in Lake City the women and children remained at the polls all day in the rain and worked for temperance with songs and pleadings.

Saturday night the Lake City band headed a parade of about 500 men, women and children, who celebrated the dry victory.

All kinds of cold sodas, also ice cream at all times at Banner Drug Store.

### Transfers of Real Estate

The Walker store building was sold at master's sale Monday and was bought by Julius Kline for the sum of \$3,800. The bidding on this piece of property was the most lively of any offered before the court house door in years past. There were several bidders up to the \$3,000 mark. After reaching that figure the bidding was between Julius Kline and Chas. A. Gardner.

The Geo. E. Pritchett residence, in South Titusville, was bid in by the mortgagee, the Treutler estate, for \$3,000, which is almost \$1,000 less than the amount of the mortgage and accrued costs. The property is well worth double the amount which it brought at forced sale.
